

## “Better By Design”

### Spill Container Liner

#### TECHNICAL DATA SHEET

1

Spill Container Liner

1 Spill Container Liners are available for most spill containers. Liners are injection molded using fuel resistant materials. Each liner includes a clamp for securing to 4” riser and an inverted clamp for securing to spill container. Liners are shipped with installation instructions, chemicals, plugs and supplies necessary to repair specified spill container. All clamps are Series 300 stainless steel.

Typical Spill Container
